Subject: RE: Summary/Action Items from 10/12/2016 Tower Standard Senior Managers Conference Call

Michael

Thank you for the summary of the call. DNR is in agreement with the action items and hopes that we can complete the evaluation of remedial options in the near future to allow time to take action before winter. In light of everyone's schedule it may be advisable to try to schedule the management calls as soon as possible. Chris Saari will check with REI and work with Bob Egan and Kristen Hanson to make sure that you have all of our data.

Larry had asked for an update on the status of the PECFA claims. The Tower Standard site has a \$1,000,000 cap and \$577,993.30 in claims have been reimbursed as of today.

We are committed to service excellence.

Visit our survey at <http://dnr.wi.gov/customersurvey> to evaluate how I did.

Subject: Summary/Action Items from 10/12/2016 Tower Standard Senior Managers Conference Call

Good Morning Larry, Judy, and John,

Thank you for taking time out of your busy schedules to participate in yesterday's conference call regarding the Tower Standard Site. The following is a summary of the action items from the call:

- 1) Update Tower Standard Timeline based on work that has transpired since our May 26, 2016 meeting in Woodruff, WI. (EPA will update with input from LDF and WDNR)
- 2) Create list of all available sampling data to date. (EPA will create with input from LDF and WDNR)
- 3) Determine Timeframe needed to review Bristol's Comprehensive Site investigation (Technical staff from EPA and LDF)
- 4) Share Bristol's Comprehensive Site investigation with WDNR and determine how much time is needed to evaluate remedial options (Technical staff from EPA, LDF, WDNR)
- 5) Schedule Meeting with Senior Managers to Present Remedial Options (EPA)

Please let me know if you have any corrections/additions to this by COB this Friday, October 14, 2016. Thank you.

Michael Harris
